

## BALLINGER OPEN SPACE RESTORATION Attestation of No Net Harm

I am the Restoration Projects Manager of the Mountains to Sound Greenway Trust and make this attestation regarding the no net harm from tree planting project, Ballinger Open Space Restoration.

### 1. Project Description

The Project that is the subject of this attestation is described more fully in both our Application and our Project Design Document (PDD), both of which are incorporated into this attestation.

### 2. No Net Harm

The trees planted in this project will produce many benefits, as described in our Application and PDD. Like almost all urban trees, the project trees are planted not for harvest but for the benefits they deliver to people, communities, and the environment as living trees in a metropolitan area.

The project trees will produce many benefits and will not cause net harm. Specifically, they will not:

- Displace native or indigenous populations
- Deprive any communities of food sources
- Degrade a landscape or cause environmental damage

Signed on October 15th in 2021, by Dan Hintz, Restoration Projects Manager, for Mountains to Sound Greenway Trust.
