

St. Elmo Preservation Project Monitoring Report

Project Operator Name: Holly Odell

Project Name: St. Elmo Preservation Project

Project Location: Chattanooga, TN

Deadline to Submit to CFC (*triennial on the date of the first Verification Report*): March 30, 2024

1. Has the contact info for the Project Operator changed? If so, please provide new contact info.

No

2. Have there been changes in land ownership of the Project Area?

No

3. Have there been any changes in the Project Design?

No

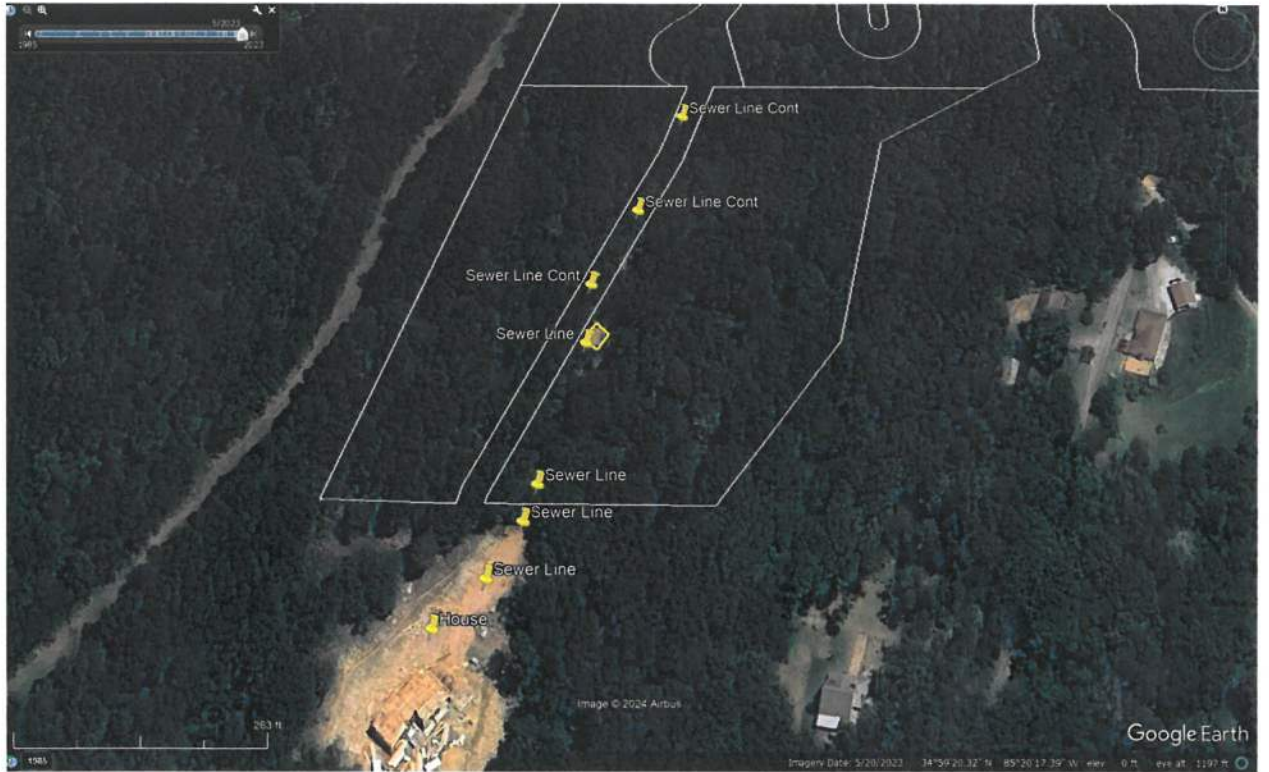

4. Have there been any changes in the implementation or management of the Project?

No

5. Have there been any significant tree or canopy losses? (Provide any Google Earth Imaging or photos to show no significant changes).

There have not been any significant changes; however, the installation of a city sewer line caused a small disturbance on what looks like our property. The line was installed, and the imagery may be off slightly from the true property line. We investigated the site in person to confirm and noticed a slight widening of the canopy, but the site did not encroach on our property. The space between the parcels shown was reserved as a right-of-way for utility connections to a nearby home and was not included in our total project acreage.

6. Please estimate the percentage of the Project Area that appears to be gaining stored carbon stocks.

0% - No significant growth or change

7. Please estimate the percentage of the Project Area that appears to be losing stored carbon stock.

0% - No significant loss

8. Please estimate the number of acres of significant soil disturbance since the previous monitoring report. Examples include plowing and removal of topsoil. For the purposes of these reports, areas of soil exposed by trees tipping over are not counted as areas of significant soil disturbance.

0 acres

9. Any other significant elements to report?

No

Signed on March 28, 2024, by Robyn Carlton, President & CEO, for Holly Odell, Director of Conservation.
