

South Prairie Creek Preserve – North Floodplain Planting Project Monitoring Report

Project Operator Name: Pierce Conservation District

Project Name: Pierce Conservation District Reforestation Carbon Program – 2022 Project

Project Location: 13518 Pioneer Way E, Orting, WA 98360 (South Prairie Creek Preserve)

Deadline to Submit to CFC (*annually from the date of the first Verification Report*): 11/13/2023

- 1. Has the contact information for the Project Operator changed? If so, provide new contact information.**

N/A

- 2. Have there been changes in land ownership of the Project Area?**

N/A

- 3. Have there been any changes in the Project Design?**

N/A

- 4. Have there been any changes in the implementation or management of the Project?**

N/A

- 5. Have there been any significant changes to the site (such as flooding or human changes)?**

N/A

- 6. Have there been any significant tree or canopy losses estimated to be greater than 10% of Project Trees or 10% of canopy?**

Prolonged summer droughts in recent years damaged plants from heat stress and lack of water. Some areas that are especially high/dry with rocky/compacted soils were affected greatly, while others with better access to moisture had a higher survival. Overall, it is estimated that there has been a 25% loss of trees since the original planting. PCD will continue to infill and replant areas to offset these losses.

- 7. Do you anticipate future canopy loss (such as a new pest or disease issue found)?**

N/A

- 8. Any other significant elements to report?**

N/A

Signed on [insert month and date] in 2023, by [insert name and title of person authorized to sign], for [insert Project Operator name].
