

Travis County Floodplain Reforestation Project- 2021 Monitoring Report

Project Operator Name: TreeFolks

Project Name: Travis County Floodplain Reforestation Project-2021

Project Location: Travis County, Texas

Deadline to Submit to CFC (*annually from the date of the first Verification Report*): January 18, 2026

- 1. Has the contact information for the Project Operator changed? If so, provide new contact information.**

N/A

- 2. Have there been changes in land ownership of the Project Area?**

N/A

- 3. Have there been any changes in the Project Design?**

N/A

- 4. Have there been any changes in the implementation or management of the Project?**

In response to ongoing high mortality rates at Site 6 Parcel ID: 500931, largely due to loss of fencing in 2023, which allowed for cattle to graze the planting site, as well as potential herbicide runoff from a neighboring property, which was likely contributing to low survival rates. TreeFolks completed a replant of 0.26 acres at this site on 2/12/2024. The attachment at the end of this document depicts the total re-plant areas.

- 5. Have there been any significant changes to the site (such as flooding or human changes)?**

N/A

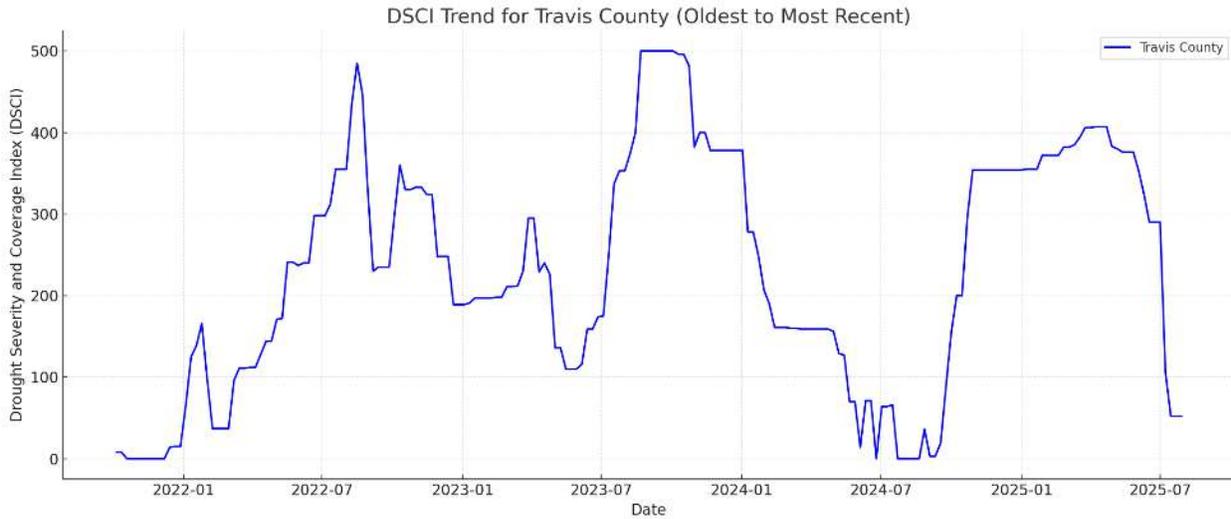

- 6. Have there been any significant tree or canopy losses estimated to be greater than 10% of Project Trees or 10% of canopy?**

N/A

7. Do you anticipate future canopy loss (such as a new pest or disease issue found)?

Central Texas has been experiencing extreme drought conditions and is expected to experience more frequent, extreme, and prolonged droughts in the future. This drought could contribute to lower survival rates at sites and may affect the survival of some of the more sensitive tree species. We do not anticipate that this drought will affect the project's ability to meet the canopy growth targets from the baseline threshold.

U.S. Drought Monitor data, which charts the Drought Severity and Coverage Index (DSCI), can be seen in the graph below, spanning from the planting date until the present. Please note that the highest possible value for DSCI is 500.

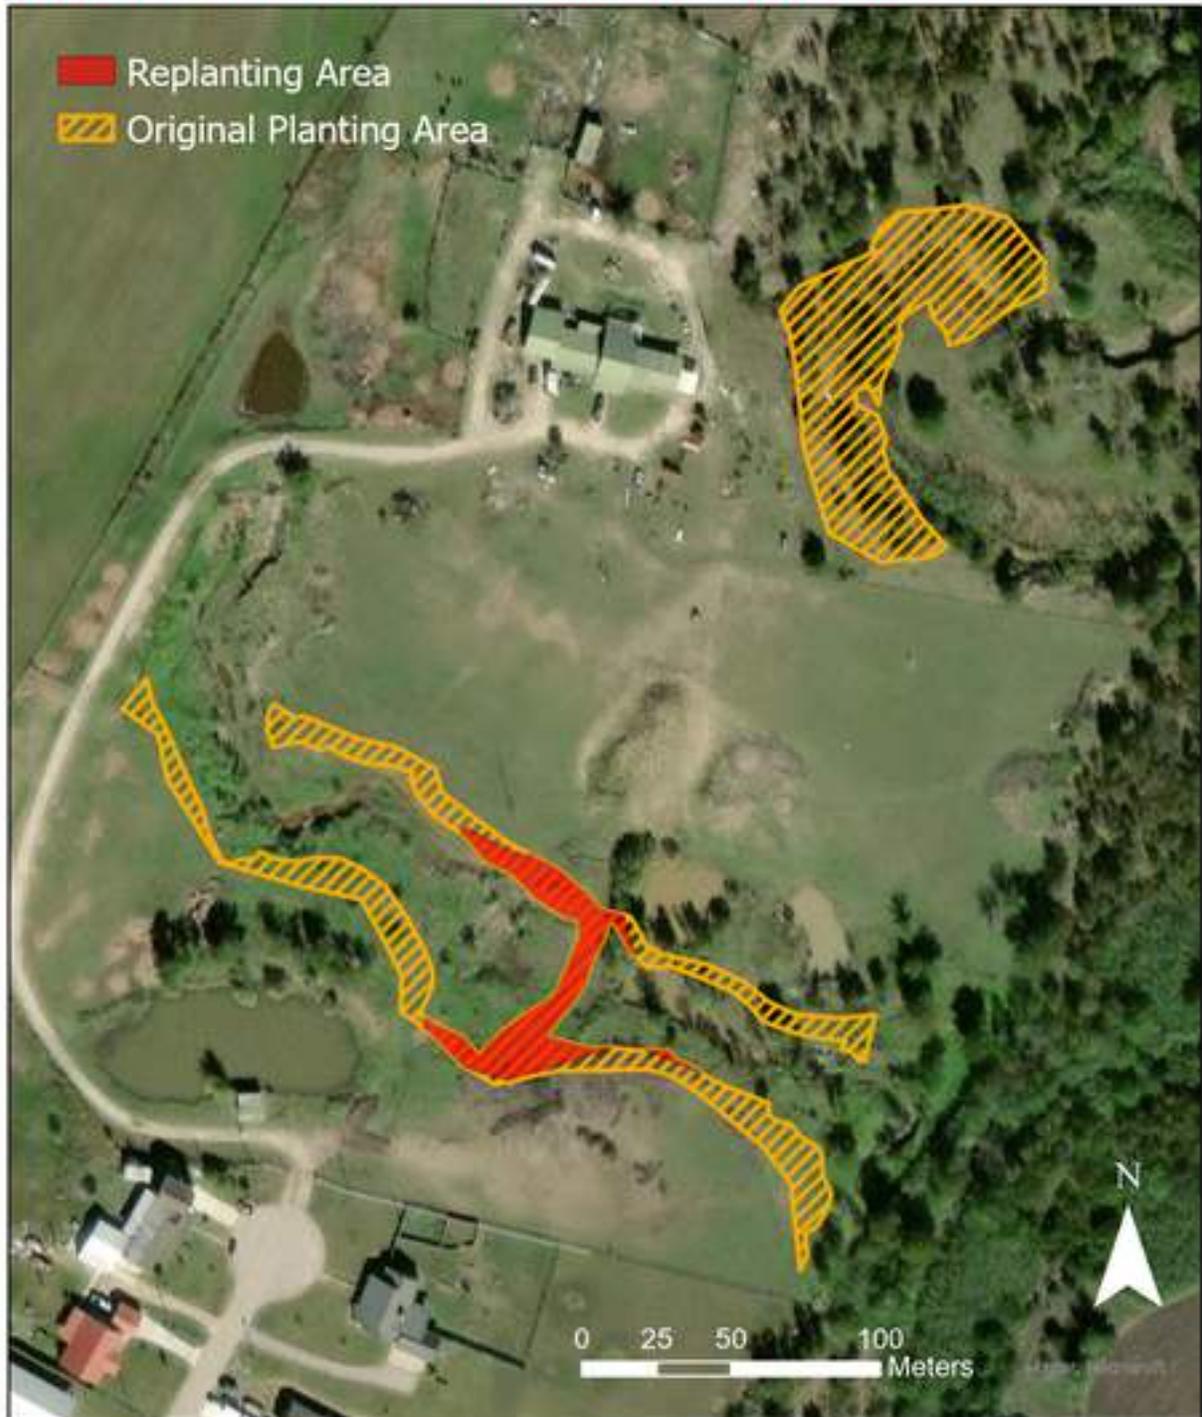

8. Any other significant elements to report?

N/A

Signed on August 11th in 2025, by Valerie Tamburri, Director of Reforestation & Lead Arborist for TreeFolks .
